About This Property

Available for short or long term leases. Set on 2.4 acres along one of Atlanta's most prestigious streets, this grand home encompasses over 25,000 square feet of heated and cooled space, plus an additional ~2,300 of covered outdoor living areas. From the imported San Marco roof tiles to the exquisite woodworking and hand-waxed Venetian plaster walls, no expense was spared with each carefully selected detail in this home. Constructed with all imported travertine stone, the exterior walls measure between 12-16" of solid concrete and stone, with the interior walls primarily finished with stone or Venetian plaster. The interior flooring is all stone, marble, and solid oak. Walking in, you are greeted by the dramatic entrance Foyer featuring an enormous iron double staircase, chandeliers imported from Paris, and a 34' tall concrete dome. On each side of the Foyer you'll find the mahogany paneled Library and the banquet-sized Dining Room that comfortably seats 20+. The heart of this magnificent home is the massive entertainer's kitchen, custom designed by Pierce and Pierce Millworks, which opens to the two-story Family Room. It features 3 enormous islands for cooking, prep, and serving. This kitchen is any chef's dream with separate Subzero refrigerator, freezer, and wine cooler, Wolf 8-burner range and cooking elements (induction, steamer, and fryer), Bosch ovens, dishwashers, and microwave, travertine sinks and Waterstone faucets, and a large walk-in pantry. The corner pizza-oven space is already vented with a gas connection. Off the Kitchen and Living Room is the generous outdoor verandah and patio overlooking the pool and rear lawn, and includes an Alfresco grill, fridge, and large wok cooking element. The main-floor Master Wing spans nearly 2,500 square feet with a private balcony overlooking the pool. The enormous bedroom and sitting area leads into a foyer with a breakfast bar and private laundry room. The Roman-st
